## TECHNICAL SKILLS

### Frontend Core

React.js

TypeScript

JavaScript ES6+

### Styling & UI

Tailwind CSS

Sass/SCSS

Material-UI

Responsive Design

### Tools & Platforms

Git/GitHub

CLI

VS Code

Netlify

Firebase

npm/yarn

### Design & Others

Figma

RESTful APIs

Retool

jQuery

## LANGUAGES

English

B2

## PROFESSIONAL SUMMARY

Dedicated Junior React Developer with over 1.5 years of professional experience of working, specializing in TypeScript, React.js, and Tailwind CSS. Proven track record of building scalable user interfaces for enterprise-grade data analysis platforms. Experienced in developing responsive, performant applications and collaborating effectively within agile development teams. Passionate about clean code, modern web technologies, and continuous learning.

## PROFESSIONAL EXPERIENCE

### Frontend Developer Intern

May 2024 - Nov 2024

#### DataMind

Successfully completed a 6-month internship focused on modern frontend development practices. Gained hands-on experience with React and TypeScript while contributing to the company's next-generation data analysis platform. Worked closely with senior developers to learn best practices and industry standards.

- ▶ Learned and applied TypeScript in production environment
- ▶ Built reusable React components following company standards
- ▶ Participated in code reviews and sprint planning meetings
- ▶ Contributed to the implementation of responsive designs

### Junior Frontend Developer

Nov 2024 - Present

#### DataMind

Currently working as a Junior Frontend Developer, building and maintaining complex UI components for DataMind's enterprise data analysis platform, developing responsive interfaces using React with TypeScript, implementing design systems with Tailwind CSS, and collaborating with backend teams to integrate RESTful APIs.

Contributing to the development of powerful AI-driven data visualization features that help businesses simplify complex data processing.

- ▶ Develop and maintain responsive React components using TypeScript
- ▶ Collaborate with cross-functional teams in an agile environment
- ▶ Optimize application performance and ensure code quality

## EDUCATION & TRAINING

### JavaScript/React Development

Udemy - Self-Paced Learning

Dec 2023 - Present

Continuously expanding expertise in React ecosystem including Hooks, Context API, and TypeScript. Building personal projects with focus on component architecture, state management, and performance optimization.

### Bachelor in Information Technologies

Business And Technology University

Sep 2020 - Oct 2024

Completed comprehensive computer science curriculum covering algorithms, data structures, web technologies, and software engineering principles. Applied theoretical knowledge through practical projects and internships.

### Front-end Development

IT Academy Step

Dec 2022 - Aug 2023

Comprehensive training in modern frontend development including SCSS, jQuery, Bootstrap, and JavaScript fundamentals. Gained hands-on experience with responsive web design and modern development workflows.

### JavaScript Programming

Digital Institute

Sep 2023 - Nov 2023

Intensive JavaScript course covering ES6+ features, asynchronous programming, DOM manipulation, and modern development practices. Developed interactive web applications including form validations, dynamic content loading, and API integrations.

## PROJECTS

### E-Commerce React Application

React.js | TypeScript | Tailwind CSS | Firebase

Developed a modern e-commerce platform with product catalog, shopping cart, and user authentication. Implemented responsive design using Tailwind CSS and TypeScript for type safety.

### Task Management Dashboard

React.js | Context API | TypeScript | Tailwind CSS

Created an interactive task management application with drag-and-drop functionality, priority sorting, and data persistence. Focused on clean UI design with Tailwind CSS and efficient state management.

### Weather Forecast App

JavaScript ES6 | OpenWeather API | Geolocation | Sass

Built a responsive weather application featuring real-time data, location-based forecasts, and interactive charts. Implemented error handling and loading states for improved user experience.

## PROFESSIONAL DEVELOPMENT

Active contributor to open-source projects on GitHub

Regular participant in online coding challenges

Completed advanced React patterns and TypeScript courses

Continuously learning new technologies and best practices
